California. The 49 Mile Scenic Drive has a great description on its wikipedia page:  
[https://en.wikipedia.org/wiki/49-Mile\\_Scenic\\_Drive](https://en.wikipedia.org/wiki/49-Mile_Scenic_Drive)

You may have noticed that the official 49 Mile Scenic Drive sign has a big influence in our wedding theme. We were inspired since these signs are all over Dogpatch, where Ian used to live.

We highlighted our favorite spots on this map, so that you can visit them too! But, don't be confused, 49 Mile Scenic Drive spots are really just great or historic sites in SF.

We also included some of our favorite SF restaurants in case you are looking for a good place.
